Release Update

Electrical Equipment and Safety System

14 Dec 2021   **version 1.0**

Summary

As part of this release minor improvements are included to allow password reset, extended authentication timeout.

What is new or improved?

- You can now reset your password using the "**Forgot password?** " Link on the login screen. Enter your registered login email to receive a verification code to reset your password. You are no longer required to raise a support request for changing your password.

- Authentication timeout, where the system used to log you out after a 15 min ideal screen time is now increased to 30mins. When the screen timeout you will be required to log back into the platform.
