

Searching for Equipment Registrations

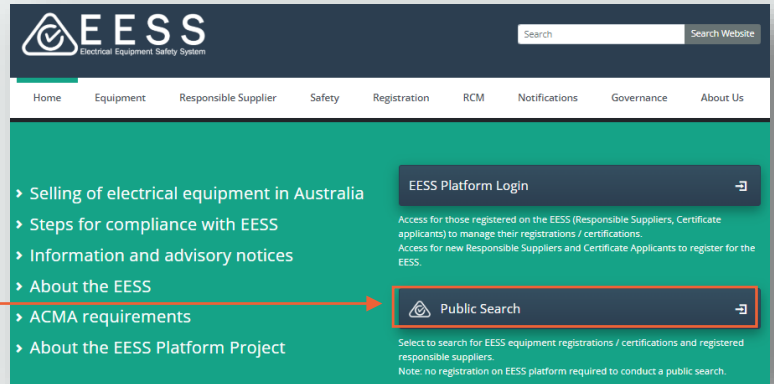

Search for a single equipment registration or for multiple equipment registrations via:

1. Public Search – for all publicly available records
2. The search functionality within the EESS Platform – for Responsible Suppliers to access their own records

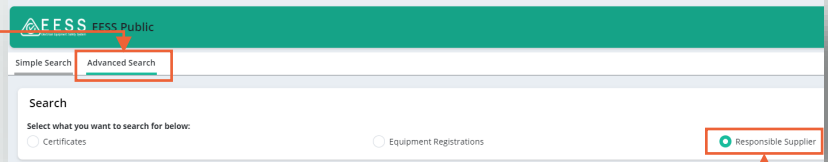

1 Public Search

To access the Public Search:

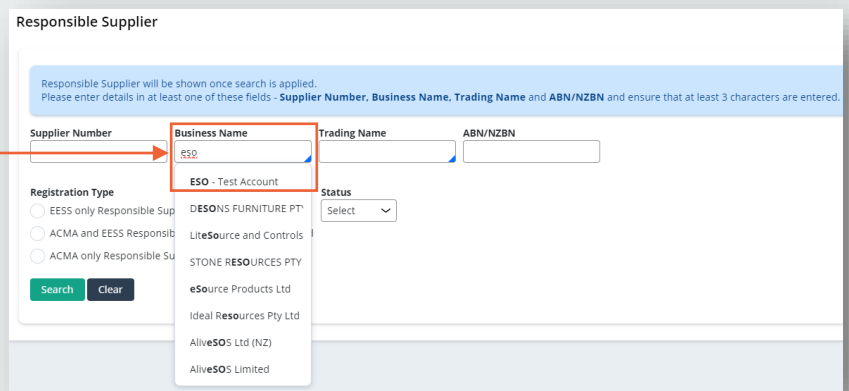

- Open the EESS website
<https://www.eess.gov.au>
- Click on the Public Search button

- Click on Advanced Search
- Select Responsible Supplier

- Enter either Responsible Supplier number, Business name, Trading name or ABN. In the example type the 1st 3 characters of the business name and select the name from the drop-down
- Click on the Search button

The Supplier number along with other business details will appear

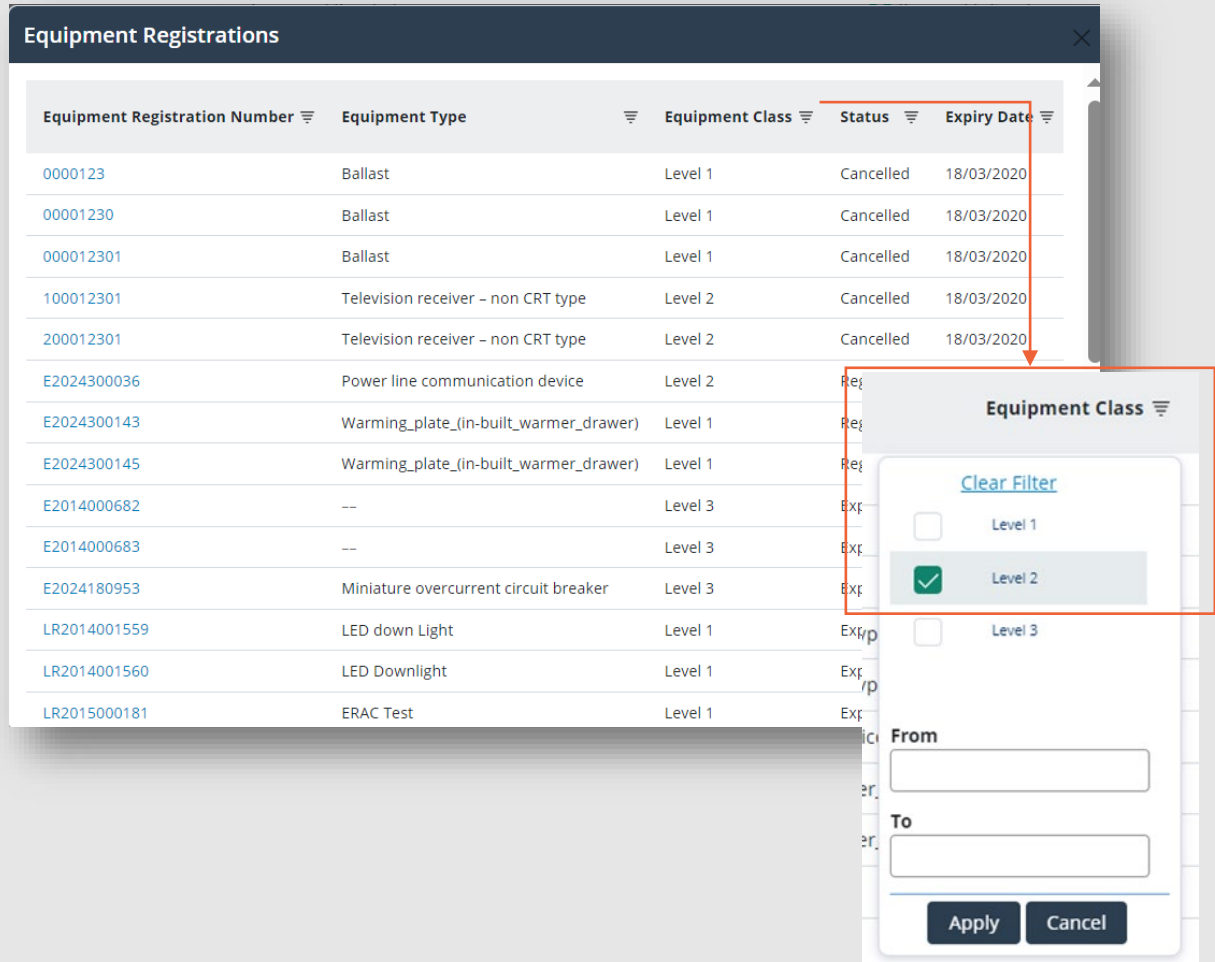

- Click on the [Link](#) in the Registered Equipment column to see a list of all registrations (up to 500)

Supplier Number	Status	Expiry Date	Registered Equipment	Registration Type	Business Name	Trading Name	ABN/NZBN	State	Country
E1655	Active	01/01/2025	Link	ACMA and EESS Responsible Supplier	ESO - Test Account	Department of Justice and Attorney-General (Office of Fair and Safe Work Queensland)	5293849579	Queensland	Australia

1 Public Search

The search opens in a ‘pop-up’. You can scroll down to view all related Equipment Registrations (if less than 500 records), and you can filter to see only Level 2, as an example, by clicking on the down arrow and clicking on the Level 2 option

NOTE: You may need to expand the pop up to see all columns – drag the corner like expanding any window.

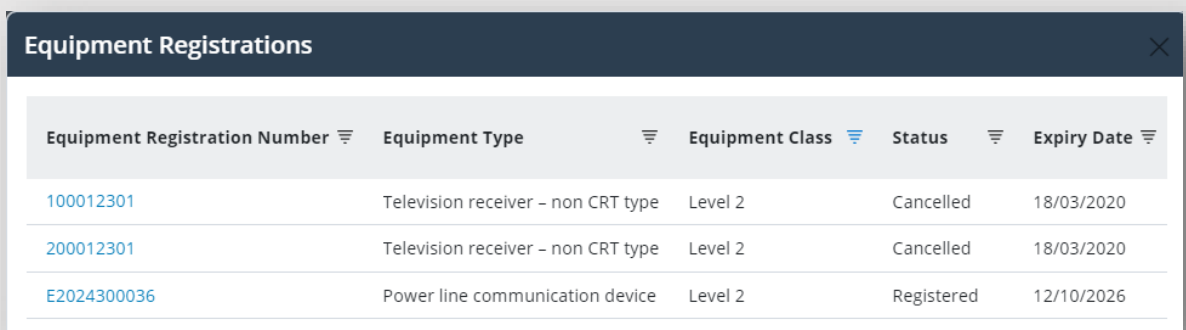

The screenshot shows a table of equipment registrations with a filter overlay for 'Equipment Class'. The table lists various equipment types and their classes. The filter overlay shows 'Level 2' selected.

2 Using Search in the EESS Platform

As a Responsible Supplier, you can review your Equipment Registrations in the EESS Platform

To view your Equipment Registrations in the EESS Platform:

- Log on to your EESS account
- Click on the Search function from the navigation menu (left of your screen)
- The search functionality will appear in a separate 'pop-up' window
- Click on Equipment Registration to have access to the search fields

Search

Select what you want to search for below:

Certificates Equipment Registrations

Equipment Registrations

Equipment Registrations will be shown once search is applied.

Please enter details in at least one of the below four mandatory fields (**Certificate Number, Model, Trade Name or Equipment Number**) and ensure that at least 3 characters are entered.

If your search is related to Legacy (old EESS platform) **Level 1** or **Not In-Scope** equipment registration, you will need to search for those using 'Legacy search' in the public search facility.

Equipment Number	Model	Trade Name	Certificate Number
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Equipment Class	Equipment Type (Level 2/3 Equipment)	Equipment Type (Level 1/Not In-Scope Equipment)	Status
<input type="text" value="Select"/>	<input type="text" value="Select"/>	<input type="text" value="Select"/>	<input type="text" value="Select"/>

Note the information in the blue box.

- To search for a single equipment registration, enter the equipment number or Model or Trade Name in the relevant field and click on the **Search** button
- If no results appear by this method see the last page Legacy System Link
- TIP: To search for all your equipment registrations, enter E20 in the Equipment Number field
 - if you have more than 500 registrations type E2024 for all registrations made in 2024; E2023 for all registrations made in 2023; E2022 etc back to E2013
 - for level 1 equipment from the legacy database, type LR2; or LR2024 following same pattern as above
- Click on the **Search** button. The search opens in a separate page (the next slide provides an example of the search results)

2 Using Search in the EESS Platform

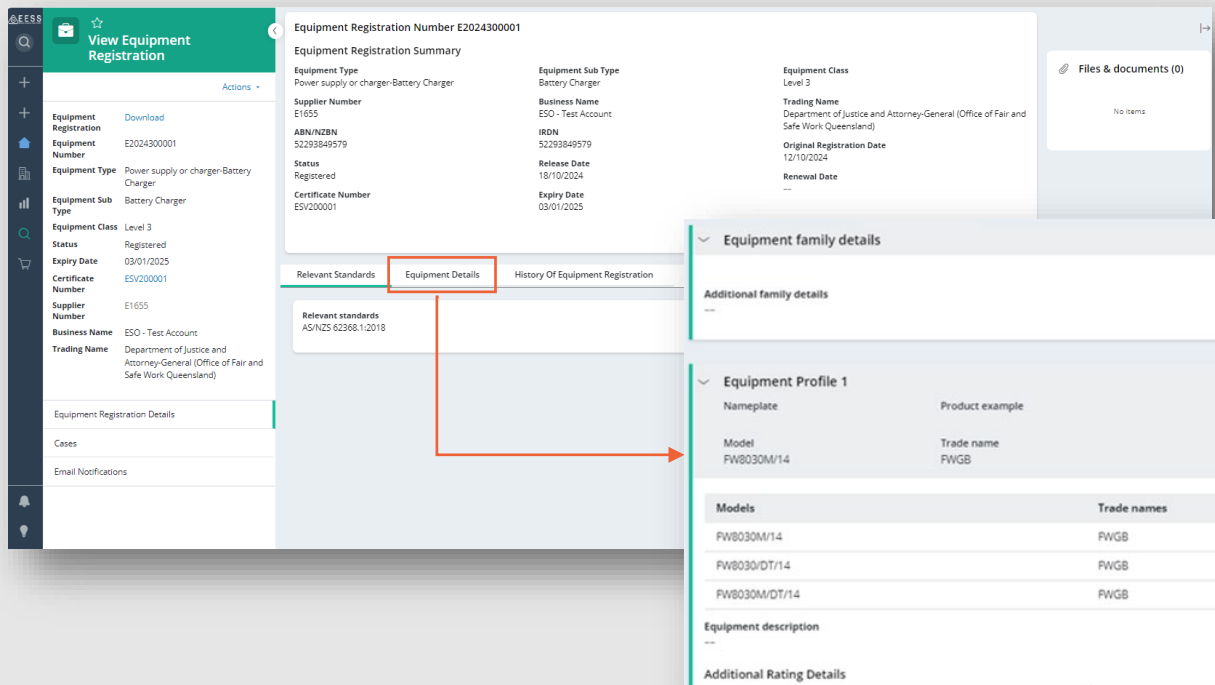

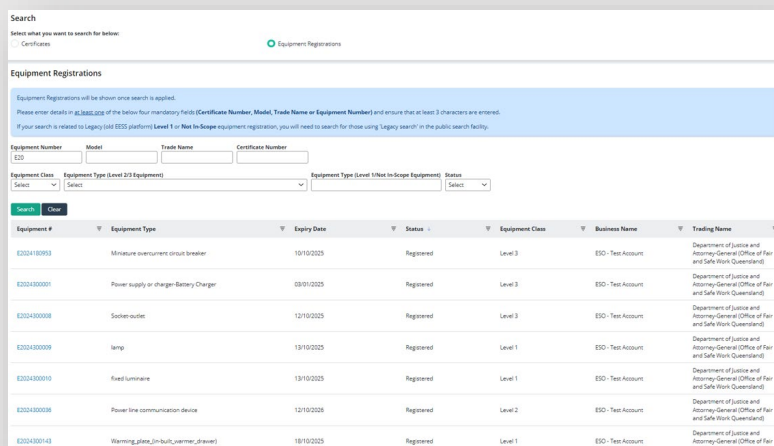

From this view you can review status and expiry date among other details

To view a particular registration:

- Click on the equipment number.

Note: to go back to the main EESS window, collapse the 'Search window' by clicking on the minimize icon top right of window

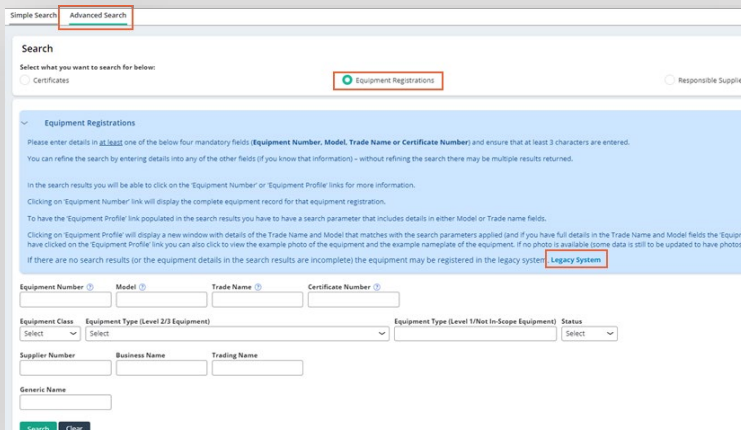

- The 'View Equipment' page provides detail of the registration which can be explored further by clicking on the Equipment Details Tab
- Display the Models and Trade Names by clicking on the chevron/down arrow

Legacy System Link – for some data registered prior to new EESS Platform

When you clicked on the 'Equipment Details' tab when searching in the EESS Platform and there was no data, or the search by Model or Trade Name did not produce a result, this is likely to be that the record (from the legacy database) has not fully migrated. You can search for this data via the Public Search legacy system link

- Open the Public Search in the EESS website
- Select the 'Advanced Search' tab
- Select Equipment Registrations
- Click on the [Legacy System](#) link

This will open the 'National Equipment Registration System' view. You can search as you would have done in the old search system. As a reminder:

- Enter the Brand or Model or certificate number or equipment number (relevant to the equipment details you are searching for) in one of the applicable fields
- Click on the magnifying glass icon (bottom right of the screen) to do the search
